

Minimum Order Fee Policy

Duralight Plastics is an online distributor of high-quality building materials for any size project. We offer a wide variety of products ranging from multiwall and corrugated polycarbonate, acrylic, and HDPE sheets to composite decking, PVC interlocking liner panels, and commercial interior design elements.

To help cover the rising costs of material handling and improve order entry efficiency, Duralight Plastics has implemented a minimum order fee policy. Multiple line items may be combined to avoid the minimum order fee charge including the cost of packaging and shipping.

This minimum order fee policy allows us to continue to provide value-added services that our customers have come to expect while keeping our prices as low as possible.

Effective May 1, 2025, Duralight Plastics minimum order fee policy is as follows:

- **To avoid a minimum fee, the total amount of your order needs to be \$1,000.00 or higher.**
- **Total order amount includes the cost of products as well as packaging and shipping.**
- **A \$145.00 small order fee/handling charge will be applied to all orders less than \$1,000.**

Whether you are a new customer or a returning one, we truly appreciate your business and look forward to working with you on your next project.

Thank you for choosing Duralight Plastics.
